

The following is a translation of an email report Family Watch International received from a young woman from Latin American who participated in the United Nations 2010 Commission on the Status of Women meetings:

Subject: Re: De FWI

“In the [UN] event that I attended the girls spoke about the right to sexual orientation, masturbation, the moral prejudices of society” and the topic of religion as an obstacle to their development. I am attaching some photos that I took of the girls (the girls who directed this event).”

This photo was sent to FWI by the Latin American representative who reported that the girls in the photo led the discussions on masturbation and sexual orientation at the UN meeting during CSW in March 2010.

This photo is from the [WAGGGS website](#) showing some of the girls in their delegation who attended this conference.
